

NCCER INSTRUCTOR CERTIFICATION TRAINING PROGRAM (ICTP) VIA ZOOM

ARE YOU A TEACHER IN WORK BOOTS AND A HARD HAT?

It is undeniable: the construction industry needs safe, skilled workers. If you are a journey level skilled craft worker, you are key to training our next generation of workers. Upon completion of this course, you will be certified to teach the NCCER Construction Craft & Maintenance curricula (www.NCCER.org).

The Alliance relies on the NCCER curricula as the foundation for our classroom training in our NYSDOL registered apprenticeship programs. To qualify as an instructor, you must have at least 5 years journey worker experience in construction, or 3 years as a state certified CTE instructor. Instructor candidates must submit resumes.

The NCCER Instructor Certification Training Program (ICTP) is scheduled as follows:

- Tuesdays & Thursdays
- September 12, 14, 19, 21, 26, 28, Oct 3 and 5, 2023
- 5:30 – 7:30 pm
- Via Zoom (attendance is required at all classes).

HOW MUCH: \$175

No charge for any instructor who successfully teaches at least one full course for MACTI. Please contact Stacy Miller, Training Director, for payment options.
